

About Us

Proud Camden is located in the 200-year-old Grade II Listed Horse Hospital in the Stables Market in Camden. Adorned by images of rock royalty throughout, the venue has been systematically designed and painstakingly restored. It retains many of the beautiful and genuine features, including the original stables that once housed the horses that were injured pulling canal barges.

Throughout the day Proud Camden is the ideal place to come and relax with your mates. Hot beverages and food are available, and each stable has HD flat screen TVs with Sky Sports and Movie channels. If that doesn't tickle your fancy, we also have a vast selection of DVDs and PS3 video games.

In the evenings the Proud Camden is transformed into a live music venue and bar from 7.30pm, with each night hosting the best eclectic music in North London.

Known for its commitment to programming the very best live music- Jessie J, Peter Doherty, Dizzee Rascal, The Kooks, Stereophonics, and Johnny Borrell all have played intimate sets. The bar has developed a cult following and become a celebrity hang-out for locals. Recent performers at the venue have included: Ed Sheeran, Dirty Pretty Things, Lethal Bizzle, The Enemy, Lykke Li, Vivian Girls, Black Lips, Manchester Orchestra and I Blame Coco with thanks to London' best industry club nights.

Proud's outdoor terraced café means Proud guests can now escape indoor gig madness to relax and enjoy the sun with drinks and food

which is served all day. Originally an abandoned and dilapidated market shop, the glass-walled space has been redecorated to do justice to the café's epic views of the notorious Camden streets.

The venue's South Gallery boasts a retro supper club restaurant also revamped to give customers a truly unforgettable experience - Proud Cabaret Camden Burlesque and Cabaret shows of exclusive UK and International talent from Thursday's through to Saturday nights.
