

## Biography

We are a tight groove metal band that believes in mixing bone crushing riffs with melody.

We have a firm belief in one band one sound, as individuals we bring something different to the band but our empire comes first!

Through the years we have made friends with many bands and promoters leading us to booking our own shows and trying to build a new London metal scene, a scene where bands look out for and support each other.

We are currently booked in for a musical workshop with I Luv Thunder, an inclusive band based at Ealing Mencap. To jam and teach our views and brand of heavy music.

We have our debut E.P. "Heil to the rat king", which will be unleashed July 2013 for your auditory Fetishes.
